REPORT

The program initiated with a welcome speech by HOD Dr. Maruthi B H, HOD advised the students to attend all such Technical talk programs.

Personal Development can help you be happier and healthier. It is about giving yourself more options and more control over your life. The more you have working in your favor in your life, the more you can achieve.

Personal development is looking inward and focusing on ways to better yourself. Personal development increases your self-awareness, your self-esteem, increases your skills, and fulfills your aspirations.

As discussed above, personal development can help you embrace your full potential and improve your quality of life. As a result of personal development, your life's biggest dreams and aspirations can come true, and you'll have the skills to thrive in any scenario.

All 189 students and faculty members from Mechanical Engineering attended the program. The program was concluded with the vote of thanks by coordinator Mr. Manjunath O.
