ABOUT EWIT

EAST WEST GROUP OF INSTITUTIONS, a well known and a prominent educational institutions crowns an absolute place among the top colleges in Bengaluru. The institution was found by philanthropist and a social worker Late Shri. C M NAGARAJ in 1968, seizing the limelight as a vision for its reputation in the realm of technological education.

ABOUT THE DEPARTMENT

Department of English is one of the premier departments to be set up in EWIT Family Flourishing under the inspiring principles and rightful direction laid by the Honorable Founder Chairman Late Shri. C M Nagaraj., Former BMP Mayor and Under the able guidance of late Shri C N Ravikiran, Former Chairman, EWGI, Smt. Rashmi Ravikiran, Chairman, EWGI, and Mr. Tejas Kiran C R., Secretary EWGI.

The department was established in 2015 with a view to impart literary and communicative skills along with soft skill training programe to all graduates and post graduates of all streams to enrich their literary capacities in the chosen area. The department follows university guidelines, VTU prescribed curriculum and initiates necessary changes in teaching, learning processes and evaluation practices at regular intervals. Studying literature here involves serving students to develop sophisticated reading and writing skills besides enabling them hone their critical processes for the understanding, appreciation and assessment of literary texts. The department exercises with the purpose of ensuring growth, grooming and fostering of critical perspectives of the learners.

VISION

- ❑ "To endow students and faculty the opportunity to experience the diversity of people and ideas in academic study and travel".

MISSION

- ❏ "To develop students' ability to think analytically, speculatively, and imaginatively in ways that are applicable across the disciplines".

- ❏ "To enhance students' ability to employ instructional technology in their writing, learning and research in innovative and creative ways".

ABOUT ENGLISH LANGUAGE LAB (Odell software)

Language lab software is software based on learning a language. Good communication depends upon the language skills one acquires while learning a language. If the four skills of language that are reading, writing, listening and speaking are practiced well. Language lab plays an important role in the language learning process.

English Language Lab software helps in learning the English language in an effective way. It provides technical tools for the students to learn the pronunciation of language in an easy way. It helps in learning the basic skills of the English language.

MAIN OBJECTIVES OF LANGUAGE LAB

- It develops communication skills in students.
- It facilitates teachers with real-time monitoring.
- It builds confidence in learners.
- It is a user-friendly software
- It helps to improve pronunciation.
- It helps in grooming overall personality.
- It is an effective way of learning any language.
- It removes the fear and hesitation of students.

An English language lab software consists of the following content to improve the English of the user !

Vocabulary – A language lab consists of 5000+ words for the students to learn and improve their speaking and writing skills. The user can learn 20 words daily and memorize them and use them in creative writing skills. This will help them to easily memorize them and build a strong vocabulary.

Grammar – The grammar part consists of spot the error, idioms, synonyms, antonyms, one-word substitute and many other lessons to practice and gain grammar knowledge. Grammar is an important section of the English language without grammar we can't judge the correct tense of the sentence. So learning grammar is very important to make the user understand the correct form of tense of speech.

Intonation – This feature helps in improving the knowledge of the English language by knowing the variation of pitch, volume, speed, and stress of voice. It is a very good feature of recording your voice and then listening to it, one will be to know the pitch of his own voice.

Pronunciation – Learning how to pronounce a word is very important in the English language. If the pronunciation is correct, the end-user can easily understand your message and reply back. But many English speakers can't pronounce the correct sound of a word which misleads the other user and can't reply back. By using English language lab software one can learn how to pronounce correctly.

Pace of speech – Pace is the key to effective communication in which speech is clearly understood. The pace of speech should remain constant, not high or low. In language lab software you can test your pace of speech with the help of a graph given in the voice recording feature. It will help you to speak at a constant pace not too high or not too low.

Soft Skills – Spears language lab software also covers soft skills like personality development, resume writing, group discussion, interview skills and many more to enhance the overall personality of the learners. These courses will bring confidence in the user and he can overcome the fear of speaking in public. Interview skills will prepare you to face an interview and ace in it.

The benefits of English language lab software are !

Based on LSRW (listening, speaking, reading and writing) skills.

It is used in schools, colleges, universities, corporate, etc.

It is a useful tool for classroom engagement and interaction.

It overcomes the traditional teaching system.

It promotes interactive learning process.

Soft skills are also taught in the language lab system.

CAPACITY BUILDING AND SKILLS ENHANCEMENT

East West Institute of Technology, keenly observe each and every student and assist them to obtain, improve and retain skills, knowledge, tools, and other resources needed to do their jobs proficiently. We will find their strengths and weaknesses then accordingly we give training to develop their capacity, skills and capabilities. The overall development is the main motto of EWIT, so we mend student folks as per corporate standards by giving them skill enhancement programs in the art of knowledge. The institute organizes many curricular & extracurricular activities, including arts and literature. Capability building and skills enhancement initiatives taken by the institution include the following.

1. Soft skills
2. Language lab and Communication Skills.
