

NAME OF THE EXTENTION ACTIVITY:

Awareness on Efficient Garbage Disposal System

DESCRIPTION:

Date:28/9/2020

The Dept. of Information Science & Engineering students are actively involved in several social activities like Swachh Bharat, Plantation, NSS activities, COVID awareness programs and technology transfer to villagers and farmers and also knowledge transfer to needy remote places school children.

One of the activities selected by the following students is:

Awareness on Efficient Garbage Disposal System

The Details of the Program:

Participated Place	Bangalore
Coordinators	Pallavi S T, Kiranmayee U
Participants	All 3 rd sem Students

The 3rd sem ISE students have organized an awareness program on Garbage disposal System. The details are as follows:

Principal & Director

East West Institute of Technology

When it comes to waste management, it is very important to learn how to gain knowledge about it. As it has a very important impact on our lives and the environment. Waste management is a burning issue in the modern world. The avoidance and reduction of waste is a very important part of waste management. We can find good techniques across the globe and good illustrations can help in establishing the new aspects of reuse and recycling. Waste management is the collection, transport, processing, recycling, and/or disposal of waste materials produced by human activity.

Importance of Garbage Disposal System:

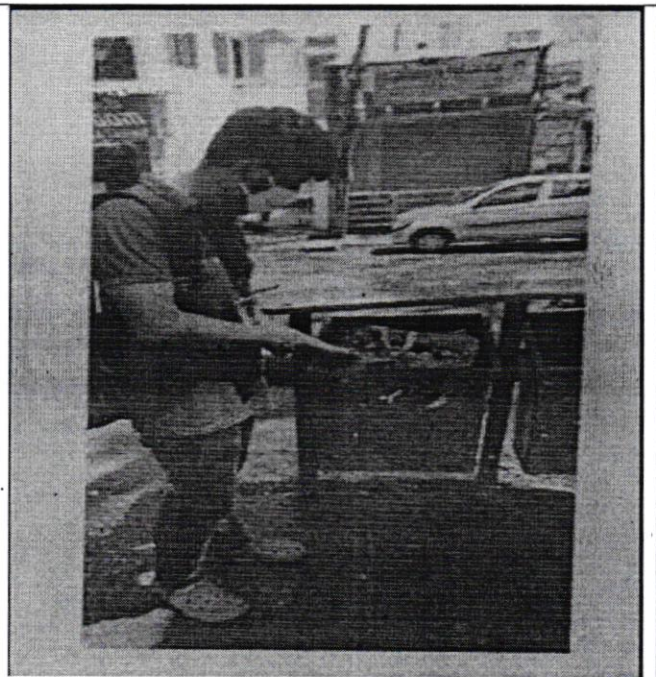

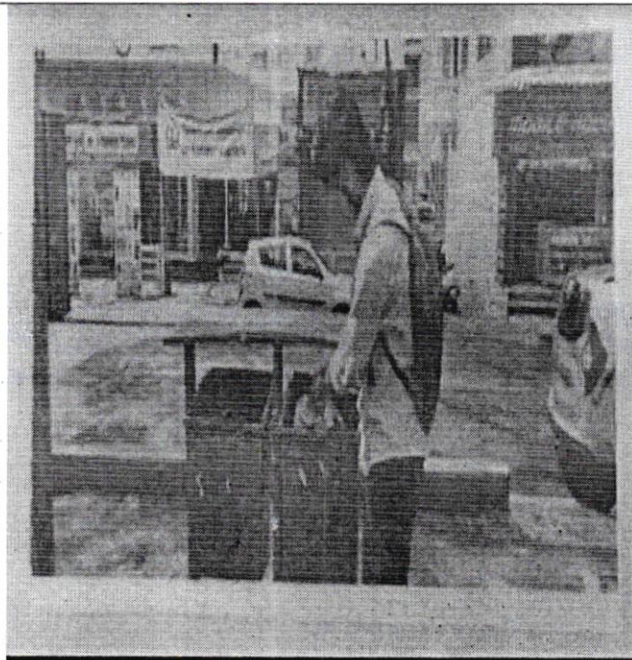

Waste management reduces the effect of waste on the environment, health, and so on. It can also help reuse or recycle resources, such as; paper, cans, glass, and so on. There are various types of waste management that include the disposal of solid, liquid, gaseous, or hazardous substances. There are many things that need to be taken into consideration when discussing waste management, such as disposal methods, recycling methods, avoidance and reduction methods, and transportation of waste. The process of waste management involves treating solid and liquid waste. During the treatment, it also offers a variety of solutions for recycling items that aren't categorized as trash.
