

About the Institute: EAST WEST GROUP OF INSTITUTIONS, a well known and a prominent educational institutions crowns an absolute place among the top colleges in Bengaluru. The institutions was founded by a philanthropist and a social worker Shri. C M NAGARAJ in 1968, seizing the limelight as a vision for its reputation in the realm of technological education. EWGI upholds its unflinching recognition in all respects of academics and is celebrating 50th year of Academic Excellence, honing the life of every student with a code of conduct. EWGI offers vivid programs such as Engineering, Architecture, Science & Commerce, Management, Pharmacy, Polytechnic, Nursing, etc. East West Institute of Technology established in 2001 with the prime motto to serve the best quality based on technical education and the campus is advantageously located in a well-known green city of Bengaluru and has an extensive vicinity of 20 acres of land surrounded with congeal and pleasant learning atmosphere.

About STTP: Machine learning is an application of artificial intelligence (AI) that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine learning focuses on the development of computer programmes that can access data & use it learn from them self. The STTP focuses on regression classification and clustering application of machine learning.

Objectives of STTP:

- > STTP focused on the learning methodologies of artificial intelligence and machine learning with IoT applications.
- > To enable participants to learn python programming, python libraries for data acquisition and handling.
- > To understand relation among artificial intelligence, machine learning & deep learning, clustering & its real life applications.
- > The faculty will be able to understand, supervised and unsupervised neural network training algorithms related architectures & practical implacability.

About the Department: Electronics and Communication Engineering provides the perfect middle ground to equip with all the necessary skills to attain wide variety of carrier options. Electronics and communication has a foot in every door which gives a basic of electronics functional understanding along with to utilize in tandem with electronics. The department established training the students in the field of electronics since 2001. Most of the students are contributing throughout the world and their contribution can be seen at national level in many public sectors, research organization and defense sectors like DRDO, ISRO etc & most of the fortune 500 companies. The college has equally supported by providing state of the art laboratories were designed and applied for the student community, the hands on experience in VLSI, SOC, IMAGE PROCESSING, EMBEDDED SYSTEM and allied areas of signal processing. Students are enriched with this technological knowledge and expertise in identified domains. For the last five decades this branch has occupied and contributed remarkably and this department equally to be a part of nation building and creating ambiance to the new horizon.

Day-1

Introduction to AI & ML

Day-2

Python Basics

Day-3

ML Essential Libraries

Day-4

Basic ML Algorithms- classification and regression

Day-5

- > Applications of Machine learning - NLP, computer vision demo
- > Getting started with IoT Platform on Cloud

Day-6

Introduction to deep learning & Neural Networks

OUTCOMES of STTP:

- ❖ Able to use & assess the principal machine learning techniques on real time applications.
- ❖ To able to evaluate and implement python programming, python libraries for data acquisition and handling.
- ❖ Able to discover and measure the neural network training algorithms related architectures & practical implacability.

BRIEF REPORT ON STTP Phase-3

AICTE Sponsored 6 Days Online Short Term Training Programme on "DESIGN AND DEVELOPMENT OF IOT APPLICATIONS (PYTHON, PROCESSOR, IOT, ML)"-PHASE 3

has been inaugurated Online by the Principal **Dr. K. Channakeshavalu, HOD of ECE, Dr. S G Hiremath, Resource person Mr. Aditya, CTO, Dr. Mahantesh K, Associate professor ECE with other resource persons** and HOD of other departments along with the faculties of other colleges. 147 Faculty were participated in the STTP phase 3.

Mr. Aditya, CTO, TEQUED Labs, had given brief introduction to AI & ML with good real time examples. Discussed on ML Essential Libraries Basic with ML Algorithms-classification and regression with their advantages and disadvantages. How to apply algorithms to the research work. Then discussion went with deep learning Techniques and neural network.

Dr. Mahantesh K, Associate professor ECE, SJBIT briefed on to the Basics Python, which helped faculty to have idea to how write programme using Python.

Dr. Vidhyashree N, Assistant professor University of TULSA, Oklahoma, US discussed on Applications of Machine learning – NLP, computer vision demo.

Mr. Sudharshan Govindan Advisory Developer Advocate Developer Ecosystem group IBM India Software Labs discussed on how Getting started with IoT Platform on Cloud. These all discussion in STTP phase -3 will help faculty to take up their research work along with academics.

We had excellent resource persons with lot of patience and they cleared all the doubts of faculty.

This STTP motivated Faculty to take up this as a base for their research work.

At the end of the workshop **Principal and HOD of ECE Department** addressed faculty with their valuable words and faculty of other colleges gave very good feedback about this STTP. Lastly online certificates were issued to all faculties after completing feedback.
