

## EWIT ERP Software

**EWIT-ERP Software** is a complete and customized solution for a Colleges handling regular academic, administrative and accounting work.

This ERP software is designed and developed to work in a **user specific** manner. i.e., **Admin, Principal, HOD, Staff, Students, Parents, Placement, Hostel-warden, Transport and Office staff**, have their **separate logins** (There should be a provision to provide additional logins according to the request of the college). For each login, the system should perform only the functionalities corresponding to that particular login.
