ABOUT US

EAST WEST GROUP OF INSTITUTIONS

East West Group of Institutions, Bengaluru is a well-known and prestigious group of educational institutions established in 1968 under the banner of Subramanya Education Society. The institution was established by Late Sri C M Nagaraj, and flourished by Late Sri C N Ravi Kiran, seizing the limelight as a marvel for its reputation in the realm of technical education. At EWGI, students across the globe study with complete satisfaction in all respects of academics.

EAST WEST INSTITUTE OF TECHNOLOGY

East West Institute of Technology was established in 2001, approved by AICTE, New Delhi, affiliated to Visvesvaraya Technological University (VTU), Belagavi and recognized by Govt. of Karnataka. The institution is marching towards great heights of success, imparting a variety of technical and value based skills to quench the thirst of young budding engineers.

DEPARTMENT OF CIVIL ENGINEERING

Department of Civil Engineering was started in the academic year 2008. Post graduate program in Structural Engineering and Geotechnical Engineering were started in the academic year 2010. The Department is equipped with advanced and sophisticated equipment's in laboratories.

Civil Engineering Association has been established so that the students can take part in these association activities, enrich their technical knowledge and also improve their confidence level through group discussions, seminars, workshops, industrial visits etc.

ABOUT THE CONFERENCE

International Conference ICACE-EWIT-2022 is a forum for the exchange of ideas and enhancement of knowledge in various fields of Civil Engineering which includes Structural Engineering, Water Resource Engineering, Environmental Engineering, Geotechnical Engineering, Construction Management and Engineering, Highway and Transportation Engineering and Earth Science.

It aims to bring together the research scholars, industrial experts, policy makers and students of related fields to foster interdisciplinary approach towards innovative theories, methodologies, tools and applications for a sustainable tomorrow.

OBJECTIVES OF THE CONFERENCE

- To strengthen collaboration among universities, research centers and construction sectors.
- To exchange and share professional skills among researchers and engineers.
- To address some of the industry challenges.
- To provide an international forum for information dissemination and discussions on research and practice related to construction industry.

WHO CAN PARTICIPATE

Academicians, Entrepreneurs, Professionals, Research Scholars and Students.

PUBLICATION OPPURTUNITY

- All accepted papers will be published in the form of conference proceedings bearing an ISBN
- Selected papers will be published in scopus indexed journal with additional charges.

CONFERENCE TRACKS

- Advances in Structural Engineering
- Advances in Geotechnical Engineering
- Innovative construction techniques and Smart Materials
- Structural Health Monitoring.
- Sustainable Infrastructure /Green Building Materials
- Environmental Engineering
- Remote Sensing and GIS in Civil Engineering
- Water Resource Engineering
- Transportation and Highway Engineering
- Earth Sciences.
- IoT in Civil Engineering.
- Artificial Intelligence in Civil Engineering.

REGISTRATION FEE
